EXPERIENCE

Junior Full Stack Web Developer   Dec '23 — Present
Ray Formula Pvt Ltd.   Hyderabad, India

- Completed 4 projects in 6 months, demonstrating strong project management and technical skills.
- Developed a comprehensive website for a customer with a PAN India business, utilizing both frontend and backend technologies.
- Implemented functionalities such as CRUD operations, along with an admin dashboard for seamless business operations.
- Optimized the website for improved performance, ensuring faster load times and better user experience.
- Delivered three UI-based projects featuring top-notch designs for both mobile and desktop views, showcasing advanced UI/UX skills.

PROJECTS

AI-Chat-Translation-App Link

- Developed an AI-powered chat translation app using Next.js, TypeScript, Firebase, ShadCN, Tailwind CSS, and Stripe. Enabled real-time multilingual communication, removing language barriers, and implemented a secure payment gateway for seamless transactions. Leveraged cutting-edge technologies to enhance user experience and ensure cross-language compatibility.

Styluxe Link

- Collaborated on a team of five to develop Styluxe, an e-commerce clone of Yepme. Contributed to building a full-stack application featuring a sleek UI design, responsive behavior, and OTP email verification. Additionally, implemented an admin panel with secure authentication.

EDUCATION

Full Stack Web Developement Course in Computer science, Masai School, Bangalore   Jan '22 — Jan '23
                                                                                                Banglore, India

- Completed an intensive Full Stack Web Development program covering front-end and back-end technologies such as HTML, CSS, JavaScript, React, Node.js, and database like MongoDB. Developed strong problem-solving skills through Data Structures and Algorithms (DSA) training. The program also focused on essential corporate soft skills, including communication, teamwork, and time management.
